# Curious Mind Mobile App

Team St. Johns
Jarod Collier, Mazen Ashgar, and Brendan Cronan

Goal

- Bring together local Christians of all ages.
  - Simple user interface and easy navigation.

- Create a safe place to discuss hard questions.
  - Promote a Bible Study or tight-knit club feeling.

- Design the app to be self-sustained.
  - Pastors can keep it alive.

Solution parts 1 and 2

To make the app easy to use for all ages, we went with large buttons and descriptive words wherever we could

Post options allow for the user to remain anonymous if asking the question makes them feel uncomfortable in any way. Only allowing a Pastor to respond creates a more one-on-one feeling while still providing others with knowledge.

Solution part 3
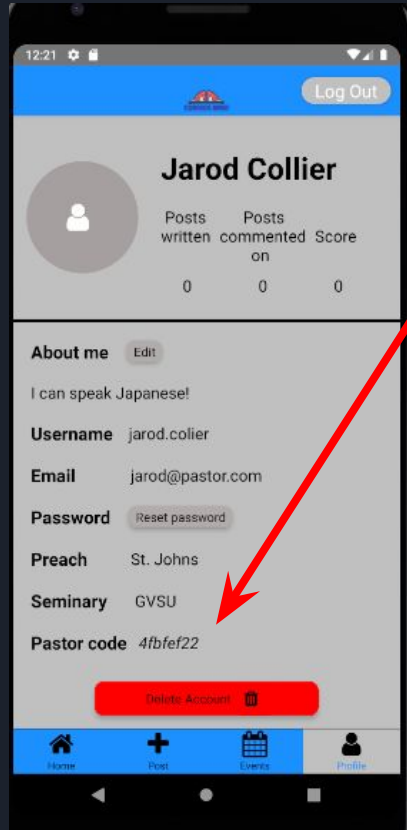

Pastor Marin will have his account created for him and he will have a "Pastor Code".

Other users can not become verified Pastors unless they get the security code from Pastor Marin.
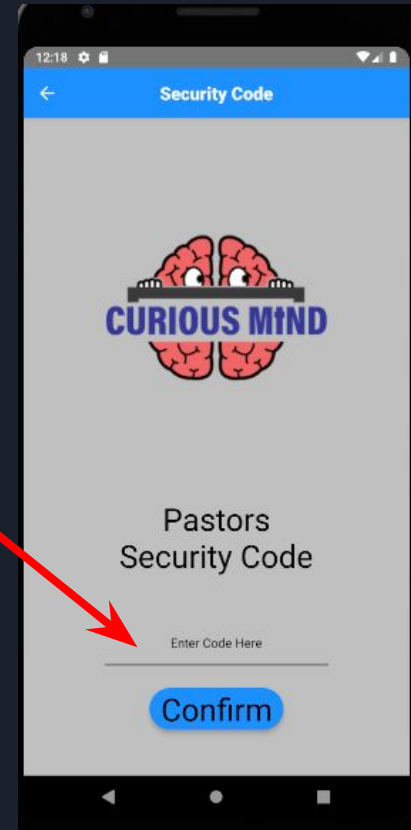

Acknowledgments

Pastor Marin and others from St. Johns
